

WE HAVE directed the Construction Department at Zion City to erect four large and well-arranged School-houses for the Junior Schools at Zion City, in four separate Districts.

They will afford accommodation to about 1500 children on two floors, and also have a third floor, in each, which will be used as a local Zion Tabernacle and will accommodate fully five hundred persons.

In these little Tabernacles in Zion City, we shall hope to train, under their Leaders, many companies of Zion's Restoration Host.

We shall also hope to meet, personally, with the local members of the Host, in and around Zion City, at a Weekly Conference in Shiloh Tabernacle.

## SCHOOL BUILDINGS PROGRESSING.

### Work Is Being Pushed Forward—Third Stories to be Used as Tabernacles.

A large force of men is pushing the work on the new Junior school buildings with all possible speed.

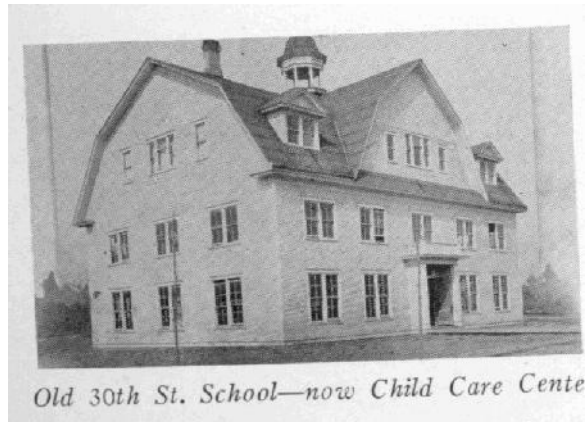

The framework of each is now nearly completed and much of the sheathing is now on.

Each building will be three stories in height.

The first and second stories will be divided each into four good-sized school-rooms with wide hallways between, while the third floor will be used as an auxiliary Zion Tabernacle.

They will be meeting places for various sections of Zion Restoration Host and Zion Dorcas workers.

The one on the South Side will also be used by the German Speaking population of Zion City for their meetings.
